| Features               | Crouse-Hinds series EMT connectors and couplings are used to join EMT conduit to a box or enclosure, or to couple two ends of EMT conduit. Our EMT fittings are available in set screw type and compression type, in both insulated and non-insulated versions. They are available in steel and zinc die cast. Crouse-Hinds series EMT connectors and couplings are also available painted in seven different colors to better match architectural specifications and preferences. |
| Long Description       | Eaton Crouse-Hinds series EMT compression connector, EMT, Straight, Insulated, Steel, Concrete tight, Threadless, 2-1/2"                                                                                                                                                                                                                                                                                                                                                           |
