Mulberry Weatherproof

New in this catalog:

- *A complete line of WeatherSafe in-use covers. Our easy-to-install covers now come with multiple bases and openings, in two depths, and in 1 or 2 gangs.*
- *More stock items in white and bronze. Additional items are available in white, bronze, black, or green upon request.*

As always, Mulberry offers:

- *Superior quality casting, tapping, and finishing.*
- *Excellent service: local stock, fast turnaround, and quick delivery from our factory and regional warehouses.*
- *The industry's most comprehensive weatherproof line, with over 350 items in stock and ready for immediate shipment.*
- *Special configurations and colors.*
- *Weatherproof made in USA.*
- *Our unique Royal Mountie™ weatherproof boxes, with rotating lugs for maximum versatility.*

Conduit bodies appear in Catalog C, with box covers.

ACCESSORIES AND REPLACEMENT PARTS B30-32

The Mulberry Royal Mountie™

The most versatile weatherproof box in the industry.

Never drop, unscrew or assemble a lug again. Less handling plus faster installation equals more profits.

Tapped, easy access ground screw hole located in the mounting bracket.

Rugged die-cast aluminum with powder finish.

An easier, faster way to install.

An internal box capacity of 311.5 CC's (19.0 cubic inches), the most in the industry.

Strong, stamped aluminum lugs provide strength, durability and rigidity on any mounting surface.

Lugs rotate for maximum mounting versatility - are available when needed, out of the way when not needed.

A good way to spend less time on the job and save more money.

Royal Mountie Single Gang Boxes

Suitable for wet locations

- All 1-gang boxes available with or without attached swivel lugs.
- 2.75" x 4.5" x 2.0" deep.
- Heavy duty die-cast aluminum, .094" thick, with powder finish.
- For use in all indoor and outdoor damp or wet locations, with all standard FS, outlet, lampholder or splice box covers.
- Ground screw and 2 close-up plugs supplied with each box.
- Pre-tapped ground screw hole.
- UL Listed and CSA Approved.
- Comply with Federal Specification AA-50563.

LIGHTING

Direct Wire-in Photo Controls With Fixed or Swivel Mounting Suitable for wet locations

- High impact polycarbonate housing.
- Turn on between 1 and 5 foot candles.
- Turn on / turn off ratio: 1 to 3.
- Single-pole, single-throw switching.
- Minimum time delay: 15 seconds.
- Contact position at night normally closed.
- External slide clip allows light level adjustment.
- With ½" -14 threaded stem. Fits ½" knockout.
- With 6" color-coded lead wire.
- Temperature range: -40°F (-40°C) to 158°F (70°C).

Swivel Mount No. 30826
Fixed Mount
(Nos. 30825, 30830, 30832, & 30847)

Durable Construction

Durable polycarbonate housing with ½" threaded stem easily mounts to a standard weatherproof box with a ½" outlet. Ideal for wall packs and other types of security and area lighting. All controls come with locknut, rubber gasket and easy-to-read instructions.

Positive Snap Action Switch

A dependable bi-metal switch provides positive on/off switching. Built-in time delay prevents accidental turn off that may result from stray automobile headlights, lightning flashes or any momentary brightness. Switch contacts are normally closed and, should they fail, remain in an ON position.

Catalog No.	Voltage	Watts Tungsten	Amps Tungsten	Watts Ballast	Amps Ballast	Carton Quantity	Weight per 100 units

All of the above items are both UL Listed and CSA Approved, except Catalog Nos. 30847 and 30832.

NOTE: See Basic Wiring Diagram on the following page.

Direct Wire-in Photo Controls - "Button" Type

Suitable for wet locations

- Threaded stem, 3/4" in length, with a 3/8"-18 thread.
- Turn on between 1 and 5 foot candles.
- Turn on / turn off ratio: 1 to 3.
- Single-pole, single-throw switching.
- Built-in time delay prevents any false switching at night due to any momentary flashes of light.
- Contact position at night normally closed.
- With 6" color-coded lead wire.
- Temperature range: -40°F (-40°C) to 158°F (70°C).

U.L. Recognized component

Durable, Weatherproof Construction

Durable polycarbonate housing is weatherproof and corrosion resistant. The polycarbonate case and lens are sonically welded in place to seal out moisture.

Ideal for wall packs and post lamps. All units come with locknut, rubber gasket and easy-to-read instructions.

Basic Wiring Diagram

Locking-Type Photo Controls

Suitable for wet locations

- UV-stabilized polycarbonate housing is translucent, with color-coded band for voltage identification.
- Meet NEMA standards for locking-type devices.
- With solid brass plug blades to provide greater electrical dependability and maximum resistance to corrosion.
- Minimum turn on: 5 foot candles; maximum turn off: 15 foot candles.
- With ½" cadmium sulfide cell.
- Built-in time delay prevents any false switching at night due to light from vehicles, lightning, etc.
- Normally closed contact position at night.
- Temperature range: -40°F (-40°C) to 158°F (70°C).
- Dimensions: 2¾" high, 3" in diameter.

No. 30834

MOUNTING BRACKET

- Receptacle for locking-type photo control.
- Locking-type receptacle comes with an aluminum angle bracket for wood pole or wall mounting.
- With three 14 AWG 18" color-coded lead wire. Receptacle has a ½" threaded stem.
- Rated for 15 amps at 120 volts, 10 amps at 240 volts and 5 amps at 480 volts.

30844	120-277	1000-2300	1000-2300VA	10	20 lbs.
30862	(mounting bracket)			12	67 lbs.
30846*	(shorting cap)			10	20 lbs

* Shorting cap keeps lights on at all times unless turned off from a remote location.

**UL Listed only.

Direct Wire-in Photo Controls Pencil Type -- Swivel Mount Suitable for wet locations

- High impact polycarbonate enclosure.
- Swivel adjustable 180°.
- Single-pole single-throw switching.
- Standard turn on at 1 foot candle.

Durable Polycarbonate Construction Suitable For Wet Locations

Polycarbonate housing is weatherproof and corrosion resistant. 180 degree swivel with end light sensing allows almost any outdoor installation.

Photocell

½" cadmium sulfide cell is calibrated to turn outdoor lighting on at 1 foot candle (dusk) and off at 3 foot candles (dawn). Both cell and protective window are UV-stabilized to assure greater cell life.

Positive Snap Action Switch

A dependable bi-metal switch provides positive on/off switching. Built-in time delay prevents accidental turn off that may result from stray automobile headlights, lightning flashes or any momentary brightness. Switch contacts are normally closed and, should they fail, remain in an ON position.

Temperature Range

Operating ambient temperature range between -40°F (-40°C) and 158°F (70°C).

Catalog No.	Voltage	Watts Tungsten	Amps Tungsten	Watts Ballast	Amps Ballast	Carton Quantity	Weight per 100 units
30820	120	1800	15	1000	8.3	10	22 lbs.
30821*	208-277	2000	16.7	1800	15	10	22 lbs.

*Not certified. **Note:** CSA International (cCSAus) tests to applicable U.S. and Canadian standards including ANSI, UL and CSA.

Guarantee—All Photo Controls

All photo controls sold by Mulberry, except our locking-type models, are guaranteed against defects in parts or manufacture for five (5) years from the date of shipment. Locking-type controls (30834, 30837, 30842 and 30844) are guaranteed for three (3) years. It is understood that the voltage and/or wattage rating of the unit have not been exceeded, and that the unit has undergone no physical abuse.

Mulberry cannot assume responsibility for units damaged by voltage surges or lightning. Defective units will be

or replaced under the Guarantee if returned to factory with shipping charges both ways paid by customer.

All Direct Wire-in Photo Controls that are returned must have a minimum of 6" leads for testing.

The foregoing defines Mulberry's sole liability, and in no event shall Mulberry be responsible for labor charges arising from the changing of defective photo controls or parts or, except as herein provided, for any damage, consequential or otherwise, of any nature whatsoever.

DIE-CAST ZINC CLOSURE PLUGS

Catalog No.	Description	Color
30290	1/2" closure plug	Gray
30290W	1/2" closure plug	White
30290Z	1/2" closure plug	Bronze
30292	3/4" closure plug	Gray
30292W	3/4" closure plug	White
30292Z	3/4" closure plug	Bronze
30294	1" closure plug	Gray
