Features

- **NAIL GUARD™**. Ordinary teeth deliver either speed or durability. NAIL GUARD™ solves this trade-off with an aggressive 5 TPI pattern for faster cuts and a unique design that protects against tooth fracture.
- **FANG TIP™**. Ordinary tips bounce or skate on the work piece. FANG TIP™ bites into the wood on first contact.
- A thicker, more rigid blade body resists fracturing and bending for maximum durability.
- The 1" tall blade body reduces blade twisting for straighter, more accurate cuts.
- Matrix II bi-metal teeth for greater durability.

Overview

The Ax Sawzall® blades have been engineered to deliver the fastest cuts, longest life, greatest tooth durability and quickest plunge cuts of any wood demolition blade on the market.
