Features  
Liquidtight tubing is designed to house and permanently protect underground cable from moisture, grit, rodents and other environmental hazards that can damage the cable over time. The Kellems brands of liquidtight — PolyTuff® I conduit and PolyTuff® II tubing —feature non-metallic, PVC-based construction, avoiding the challenges of corrosion while providing high strength, superior flexibility and outstanding handleability. When compared to metals, they can be deployed in flexible directions, even accomoda
