| extra long description | ETN CHPHD Hold Down Kit for 2 Pole                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Features               | Eaton's CH 3/4-inch loadcenters enclose CH circuit breakers for power distribution and circuit protection in residential and light commercial applications. Also called a breaker box, electrical box or even a fuse box, the main function is to take electricity supplied by the utility and distribute it throughout the home to feed lights and receptacles. Covers are typically packaged separately and available as surface or flush mount. |
| Long Description       | Eaton PON Accessories, Hold down kit for 2 pole CH plug-on neutral breaker, Two-pole                                                                                                                                                                                                                                                                                                                                                               |
