

Now available in 480V

150W Floodlights

High-power, wide-distribution LED floodlight for building facade landscape and sign lighting. 480V also available in 125, 105 and 78W.

125W Area Lights

Specification-grade LED area lights available in IES Type II, III and IV distribution. For use in parking lots, roadways, pathways and general area lighting. 480V also available in 105, 78 and 50W.

104W Area Lights

104W area lights are available in three different cutoff options, for square steel poles at 20-30 ft., up to four fixtures per pole.

125W Wallpacks

Ultra-high output, high-efficiency 125 Watt LED wallpacks. Airflow technology ensures long LED and driver lifespan. 480V also available in 105, 78 and 50W.

104W Wallpacks

High-efficiency 104W LED wallpacks come in three cutoff options. Patent pending thermal management system keeps the fixture running cool for a long, long time.

125W Roadway Lights

Replaces 350W metal halide roadway lights. Free trial program and leasing options make it easy to get started with LED. 480V also available in 105, 78 and 50W.

Full line of 480V LED fixtures

Notes:

For white add "W" and for roadway gray add "RG" before "/480" suffix (i.e. ALED105W/480).

Roadway gray is only available for roadway lights and area lights (not including ALED104s).

For neutral color temperature add "N" and for warm color temperature add "Y" before color suffix (i.e. ALED105YW/480).
