| Description            | INSD MULTI-TAP CONN                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| extra long description | NSI IPLG6-3 6-14 Awg (Class B,C,D,K                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Features               | The Polaris IPLG6-3 3-Port Single-Side Connector provides the simplest solution for forming a secure connection between up to three fine-stranded wire conductors in applications including cable trays, troughs, wire-ways, raceways, ducts and motor junction boxes. Sized for 6 - 14 AWG wires and rated for 600V, this connector installs faster than traditional uninsulated connector options using just a hex key and torque wrench. The aluminum alloy body is wrapped in high-dielectric strength plastisol insulation |
