| Catalog Number   | MEQ2                                                                                                                                                                             |
| Manufacturer     | Edison Fuses                                                                                                                                                                     |
| Description      | Eaton Edison Meq Fuse, Supplemental Protection Of Transformers, Solenoids, and Other High Inrush Circuits., 2 A, Non-Indicating, 10 Kaic At 500 Vac, Fiber Tube, Standard, 500 V |
| Weight per unit  | 0.0200 (lbs/each)                                                                                                                                                                |
| Product Category | Dual Element                                                                                                                                                                     |

### Features

|            |                                   |
|------------|-----------------------------------|
| dimensions | 1.0000 IN X 0.4060 IN X 0.4060 IN |
| Material   | Fiber Tube                        |

### Descriptions

|                        |                                                                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description            | 2A 500V TD CT MIDGET FUSE                                                                                                                                                        |
| extra long description | EFSE MEQ2 UL TIME DELAY MIDGET FUSE                                                                                                                                              |
| Features               | Edison offers a broad selection of Supplemental and Midget Fuses in both Time-delay and Fast-acting designs with voltages as high as 600Vac and 600Vdc                           |
| Long Description       | Eaton Edison MEQ fuse, Supplemental protection of transformers, Solenoids, and other high inrush circuits., 2 A, Non-indicating, 10 kAIC at 500 Vac, Fiber tube, Standard, 500 V |
| Product Type           | UI Time Delay Midget Fuse                                                                                                                                                        |

### Manufacturer Information

|                           |                |
|---------------------------|----------------|
| Brand                     | Eaton          |
| GTIN                      | 00782634786023 |
| Manufacturers Part Number | MEQ2           |
| UPC                       | 782634786023   |

### Taxonomies, Classifications, and Categories

|                      |              |
|----------------------|--------------|
| Category Description | MIDGET FUSES |
| Type                 | FUSE         |

### Availability

|        |          |
|--------|----------|
| Status | Inactive |
|--------|----------|

### Packaging

|                 |      |
|-----------------|------|
| Carton          | 1    |
| Package         | 10   |
| Weight Per each | 0.02 |

### Uses, Certifications, and Standards

|             |                                                                    |
