

**HALO RA Baffle Recessed Adjustable LED Trims** are ideal for aiming light in sloped ceiling, task lighting, or wall washing applications. The adjustable gimbal tilts up to 35° and rotates 360°, so you have full, below-the-ceiling control to aim the light where you want it.

These recessed LED trims are a great solution for retrofit, remodel, and new construction applications.

Choose between 5 color temperatures, from soft white (2700K) to daylight (5000K), or opt for the dim-to-warm setting that mimics the glow of candlelight.

The RA recessed LED trim includes selectable lumens, so you can select your preferred brightness depending on your ceiling height.
