Descriptions

Description	SOFT STARTER 290MM 420A W/ OPT INSIDE THE DELTA
extra long description	ETN S811+V42N3S RVSS 290MM 420A W/O
Features	Advanced intelligence. Compact footprint. The S811+/S801+ line of intelligent technologies soft starters is designed to be the smallest, most compact soft starter in the market today. With this small size, it can easily fit in place of existing soft starter designs, wye-delta starters or across-the-line NEMA and IEC starters. This feature allows easy retrofits of existing motor control centers or enclosures and saves the expense of replacing existing structures or adding a new one to house a soft starter.
