2" CORD GRIPS
For use with metal-clad cable, TECK corrugated cable or interlocked steel or aluminum cable, Crouse-Hinds series TMC cable glands provide a means for terminating at junction boxes, control centers, panelboards and enclosures for motor control and electrical distribution equipment. TMC cable glands form a mechanical watertight connection and may installed in Class I, Division 2 locations provided there are no arcing and sparking risks in accordance with NEC501.10B.
